## **CECS: OOSH: Philosophy**

At Cowra Early Childhood Services Out of School Hours Service (CECS OOSH) our purpose is to provide high quality education and care for children 5-12 years of age on an afterschool and vacation care basis.

At CECS OOSH we believe;

Every child is unique with individual needs and rights, by recognising and meeting these needs and rights we assist each child to grow and develop in an environment where they feel safe secure and a sense of belonging.

The time children spend with us should be relaxed and recreational.

The programs we provide support a holistic approach to each child's learning and development.

Encouraging children of middle childhood age (5-12 years) to be active participants and decision makers in the program, routine, and boundary planning processes provides a sense of ownership.

Making choices and risk taking is an integral part of each child's growth and development.

Our flexible program and routine provide opportunities for the children to make choices on how they utilise their time with us.

We acknowledge Aboriginal and Torres Strait Islander people as the first Australians, value the contributions of these cultures and are committed to ensuring that our curriculum includes an indigenous perspective.

A welcoming environment respects all children and families, we encourage their participation and input into our programs.

Our service, its children, educators and families are active in the wider community; the inclusion of community members and events in our programs promotes participation and collaboration within the community.

Mentoring and professional development is essential to enable educators to provide environments which allow children to feel safe and secure, extend and develop their interests, knowledge and abilities and a sense of belonging.
